

The book cover features a dark, starry night sky with a bright, glowing crosshair-like light source in the upper left. Below this, a desert landscape with reddish-brown rock formations is visible. Two large, dome-shaped structures with a grid-like pattern, resembling geodesic domes or observatories, are situated in the foreground. The overall scene has a mysterious and futuristic feel.

Este jueves **29 de noviembre** a
las **19.30 hrs.** os invitamos a la
presentación de la novela:
